The right fit for you

AirFit™ N20

Nasal mask

ResMed.com

Start dreaming again

The benefits of sleep apnea treatment are truly remarkable. Getting a good night's sleep gives you the energy to get back to doing the things you love. But one of the most inspiring things people tell us about starting CPAP is that they're able to dream again.

Congratulations on taking an important step toward getting restful sleep.

We're excited to introduce the AirFit™ 20 series, a culmination of more than 25 years of CPAP mask technology innovation.

With feedback from more than 350 patients worldwide used to develop the AirFit 20 series[2-5], you can feel confident that our most technologically advanced nasal mask yet is also the right fit for you.

AirFit™ N20

Nasal mask

Ultimate comfort and performance

The AirFit N20 features the InfinitySeal™ cushion – the most adaptive we've ever designed – along with a soft and flexible frame that includes integrated padding. The result is a mask that comfortably moves with you and provides a reliable seal throughout the night, regardless of sleep position.

1. **InfinitySeal™ cushion** is proven to fit 99% of all faces.[2]
2. **Quick-release elbow** makes it simple to disconnect from the tubing without removing the mask.
3. **Plush headgear** is specifically designed for extra softness and stability.
4. **Soft and flexible frame** sits underneath the eyes and adapts to different facial types, while its integrated padding provides added softness.
5. **Magnetic clips** guide the headgear to the frame quickly and easily.
