Hans Rudolph makes 5 unique Sizes of V2 Masks

The 5 Sizes of Hans Rudolph Masks cover a larger range of faces than any mask in the world.

Our V2 Masks are made in Disposable and Reusable types and they are 2 sizes larger than our competitors as follows:

Hans Rudolph Petite size Mask is equal to a Small in our competitors.

Hans Rudolph Extra-Small size Mask is equal to a Medium in our competitors.

Hans Rudolph Small size Mask is equal to a Large in our competitors.

Hans Rudolph Medium size Mask is equal to an Extra Large in our competitors if they have an XL size.

Hans Rudolph Large size Mask is huge and does NOT have an equal size from our competitors.

Our masks fit into the face and NOT on top of the face for a leak free comfortable seal.
Our masks follow the patients face contour with a soft sealing flange integral to the soft face piece.
Our masks fit under the chin and will not ride up the face.
Our masks do NOT have a hard frame and therefore we avoid skin breakdown issues.
Our masks do NOT have a cumbersome and painful forehead bar.
Our masks have a soft 4 strap headgear that secures a comfortable leak free fit.

We make a reusable plastic Mask Sizing Gauge to measure the patient's face for the correct size selection.

Our Disposable and Reusable Full Face CPAP, BiLevel and NIV Masks are sold worldwide.
