F&P Eson™

The F&P Eson is designed to perform in tune with you and your needs. The three key components, the *RollFit™ Seal*, *ErgoFit Headgear* and *Easy Frame*, work in harmony. These components have been designed to deliver the comfort, seal and easy use that Fisher & Paykel Healthcare masks are known for.

- **RollFit Seal**
As the name suggests, the one-piece seal ‘rolls’ back and forth on the bridge of the nose to adjust automatically. In doing so, the RollFit Technology reduces pressure on the bridge of the nose.
- **ErgoFit Headgear**
This breathable, ergonomically designed headgear has been designed to self-locate high on the rear of the head, allowing for head movement (sideways, up and down).
- **Easy Frame**
This low-profile frame is stable, durable and small, and ensures a clear line of sight. The one frame fits all three seal sizes and has an Easy-Clip frame attachment to aid assembly after cleaning.

F&P Simplus™

F&P Simplus

When engineering the F&P Simplus our designers set out to create a mask that revolutionized Full Face comfort, seal and easy use. The F&P Simplus is the result of intensive research and development, many prototypes and thousands of design hours. We consulted patients, equipment providers and clinicians from around the world to develop a mask that simply fits + performs.

- RollFit Seal**
 As the name suggests, the one-piece seal “rolls” back and forth on the bridge of the nose to adjust automatically. In doing so, the **RollFit Technology** reduces pressure on the bridge of the nose.
- ErgoForm Headgear**
 This breathable, ergonomically designed headgear self-locates high on the rear of the head, allowing for unrestricted head movement (sideways, up and down).
- Easy Frame**
 This low-profile frame is stable, durable and small, and ensures a clear line of sight. The one frame fits all three seal sizes and has an **Easy-Clip Frame Attachment** to aid assembly after cleaning.

F&P Pilairo™ Q

Weighing in as one of the lightest nasal pillows masks (1.94 ounces/55 grams¹), the F&P Pilairo Q has been further developed and re-engineered to improve patient satisfaction. The F&P Pilairo Q has just three key components and two minimalist headgear options.

- **AirPillow™ Seal**
The AirPillow Seal is 3D contoured with fine Variable Thickness Silicone (VTS™) and uses CPAP pressure to self-inflate to create an effective yet gentle double seal into and around the nose.
- **Easy Frame**
This low-profile frame is stable, durable and small, and ensures a clear line of sight. The delivery tube is lightweight, very flexible and designed to minimize pressure or pull on the face.
- **Headgear Options: Adjustable or Stretchwise™ Headgear**
 - a. **Adjustable Headgear** – This breathable, ergonomically designed headgear fits a greater range of head sizes and enables sizing adjustment to the patient’s preference.
 - b. **Stretchwise Headgear** – This minimal headgear automatically adjusts to the wearer for a quick and easy fit.
