Quattro Air

The lighter way to better sleep

The Quattro Air is the lightest full face mask on the market. With only four parts, it is 45% lighter and is even more comfortable than the Mirage Quattro—our leading full face mask. Because it builds on the proven reliability and performance of the Quattro Series, you can be confident it will deliver a comfortable therapy experience.

Quattro Air

The Quattro Air delivers the proven performance and reliability of the Mirage Quattro™ in a lighter, more comfortable mask that is simpler to set up and use.

Ideal for your patients

With its lightweight design and only four parts, the Quattro Air appeals to new and existing patients. Because it's incredibly easy to use, clean and assemble on a regular basis, they can focus on getting a good night's sleep.

Ideal for your business

While your patients enjoy comfortable therapy, you can enjoy the benefits of long-term compliance: easier setups, reduced callbacks, less time spent on troubleshooting and more replenishment business.

The Quattro Air for Her features a stylish headgear and fit range specifically for women

SoftEdge™ headgear design features premium rolled-edge fabric that improves comfort and reduces facial marks

Circular diffuse vent gently directs air away for less patient and bed partner disturbance

One-piece elbow, swivel and anti-asphyxia valve with squeeze-tabs make attaching and detaching quicker and easier

Swivel reduces tube drag, giving patients the freedom to move during sleep without compromising seal

Flex-wing forehead support enables auto-adjustments and eliminates forehead pads for greater comfort and lighter feel

Improved comfort and less chance for skin irritation at the sensitive nasal bridge area

Enhanced dual-wall Spring Air™ cushion is the next-generation design that delivers a high-performance seal with even more comfort at nasal bridge area; clipless cushion-to-frame attachment is easy to assemble

Headgear loops simplify attachment for improved usability

Quattro Air

- 1 Remove the elbow from the mask by pressing the squeeze tabs and pulling the elbow away.
- 1 Pull headgear over your head with both lower headgear straps released.

- 2 Adjust both the straps of the upper headgear evenly until the mask is stable.

- 3 Bring the lower straps below your ears and loop the headgear into the lower hooks on the frame.

- 4 Adjust the lower headgear straps evenly until the mask is stable.
- 4 The fitting should be firm but not uncomfortable.
- 4 Do not over tighten.

- 5 Connect the air tubing from your device to the elbow.
- 5 Attach the elbow to the mask by pressing the squeeze tabs and pushing the elbow into the mask.
- 5 Turn on your device so it blows air.

- 6 Undo the fastening tabs on the upper headgear straps.
- 6 Reposition both of the straps evenly, only enough until a seal is achieved, then reattach the fastening tabs.
- 6 Your mask is now ready to use.
